

## Your Trusted Partner

[RingPower.com](http://RingPower.com)

Ring Power®

As owner and operator of Diesel Engine Sales Company in St. Augustine, Florida, my father, L.C. "Ring" Ringhaver, preferred to power the shrimp boats his company built and sold with Cat® diesel engines. In fact, he sold so many Cat marine engines to customers around the world that Caterpillar® awarded him the engine franchise for Florida in 1961, and Ring Power Corporation was formed. One year later, Ring Power was named the full line Cat equipment dealer in North Florida.

Today, Ring Power is comprised of 13 specialized divisions with more than 2,100 employees and more than 26 locations in North America. In addition to the full line of Cat products and services we offer in North and Central Florida, we represent an ever expanding roster of diverse product lines. Our allied, crane and material handling equipment business operations span the Southeast U.S., while our temporary power and temperature control services meet the needs of the entertainment industry around the globe.

As a company whose name is synonymous with quality, service and commitment, Ring Power is equipped to handle the ever changing demands of the industries we serve and will continue to invest in training and tooling to ensure we are equipped to address our customers' needs. We take pride in our employees, whose knowledge, skills, and dedication to customer satisfaction are key to our company's longevity. Our focus on safety ensures our employees are properly trained and equipped to work safely, on customer sites and in our own facilities.

We remain committed to the success of our customers and will continue to grow our products and solutions offerings to be the best equipment provider in the industry!

*Randal L. Ringhaver*  
**Chairman and President**

# DEDICATED TO YOUR SUCCESS.

**With more than 55 years as a supplier in Florida's heavy equipment industry, the Ring Power name still stands for quality equipment, superior product support and customer satisfaction.**

Construction, paving, earthmoving, pipeline, agriculture, mining, material handling, power generation and distribution are just some of the many industries we proudly serve with an extensive line of new and used Cat® and allied equipment for purchase, rental or lease. Ring Power customers rely on us for the highest quality products and best-in-industry support to keep their equipment operating at peak performance.

Over the years our focus has been on satisfying customers and ensuring their success. Our history proves you can count on Ring Power and our future depends on it.

# PURCHASE & RENTAL OPTIONS

## More than a Cat® dealer, we offer a wide range of allied equipment, from light towers to heavy cranes.

In addition to Cat heavy equipment, Ring Power sells, leases and rents an extensive inventory of complementary equipment lines from other leading manufacturers. Our new and used equipment inventory includes cranes, construction and paving equipment, forestry and materials processing equipment, generators, power modules, cooling and heating units, compressors, aerial lifts, light towers and material handling machines.

Our rental fleet is comprised of a variety of late model machines with low usage hours available for immediate

rental. Whether you're a large contractor, private business or governmental agency – whatever equipment your project demands – our Heavy Equipment, Cat Rental Store, Ring Power Crane, Ring Power Lift Trucks and Power Systems divisions are ready to meet your needs.

Working with Caterpillar® Financial Services Corporation and other leading finance institutions, Ring Power is also able to offer a wide range of financing options to assist with your equipment investment whether you decide to purchase, lease or rent.

# BACKING ALL OUR PRODUCTS WITH SUPERIOR SERVICE

## Shop Facilities

Ring Power's shops are designed to get your equipment or component repaired and back to you with minimum downtime. All repairs are performed by our qualified technicians and machinists for faster turnaround and guaranteed quality control from start to finish. Our facilities specialize in all aspects of equipment service and maintenance.

- Hydraulics
- Cylinder Rod Resurfacing
- Undercarriage
- Truck Parts and Service
- Machining
- Engine Repair/Rebuild
- Transmission
- Painting
- Welding and Fabrication
- Hydraulic Hose Repair

## Field Service

Our fleet is comprised of more than 575 field service vehicles, fully equipped to perform troubleshooting, diagnosis, adjustments and repairs on-site, at the customer's location. Our highly skilled, factory trained technicians are prepared to respond — 24 hours a day, seven days a week.

- Machine and Component Repair
- Preventive Maintenance
- Air Conditioning System Repair
- Complete Marine Engine Service
- Truck Service Mobile Repair (Available at select locations)

## Parts Support

Our unmatched parts availability within our industry represents more than a major dollar investment; it reflects an exceptional understanding of equipment and customer requirements. If you don't have time to stop by one of our branch locations, you can also order new Cat parts online from our PartStore™. Our parts shuttle trucks travel over 2,600 miles every night to ensure that — in most cases — you'll get the part you need within 24 hours at no additional charge.

Ring Power's Used Parts division carries a large inventory of used and surplus new parts for Cat and allied equipment. As part of an extensive network of 475 dealers nationwide, Ring Used Parts can get you that hard-to-find used part — even for your oldest model Cat machine!

# SOLVING PROBLEMS BEFORE THEY START

## Equipment Management

Ring Power offers a wide range of service and support options to help you maintain the built-in value of your equipment and get the most out of your investment. Our shops are among the largest and best-tooled in Florida, and our technicians are specially trained to work on Cat equipment as well as that of other leading manufacturers.

- In-Shop & Field Service
- Technical Analysis
- Custom Track Service
- Preventive Maintenance Programs
- Hydraulic Service
- Custom Fabrication
- Total Maintenance & Repair Coverage
- Scheduled Oil Sampling
- Fluid Analysis
- Equipment Condition Monitoring
- Cat Certified Machine/Component Rebuilds
- Ring Power Second Life Machine Rebuilds

## Customer Support Agreements (CSA)

Ring Power puts the “custom” in customer support with a variety of convenient and cost-effective CSAs for individual machine components, single pieces of equipment or entire fleets, both new and used. From simple Preventive Maintenance (PM) kits to sophisticated Total Maintenance and Repair (TM&R) coverage, Ring Power will help you develop an agreement that provides maximum benefit for your equipment and your resources.

## Major Component Rebuild Centers

Ring Power offers guaranteed pricing plans on engine, transmission, final drive and differential axle rebuilds to restore your equipment components to original performance standards using genuine new or remanufactured Cat parts. Our experts are prepared to help you achieve the level of repair you desire for your machine. By choosing from a matrix of warranty criteria, maintenance requisites and pricing requirements tailored to your particular machine’s application, hours and evidence of wear, you control the extent of the repairs and minimize the cost.

## Customer Training

In today’s high technology world, operators must have a thorough understanding of machine systems in order to achieve maximum efficiency and greatest return on equipment investment. To that end, Ring Power offers safety, operator and technical training to help intermediate and experienced equipment operators improve their skills. All training can be tailored to our customers’ requirements.

# HELPING YOU ACHIEVE THE SUCCESS YOU WANT

## We treat your equipment as if it were our own.

Equipment Management Solutions (**EMSolutions**) is a portfolio of technology-enabled services to help monitor location, fuel burn and utilization, as well as machine health and maintenance issues like hours, fluid contamination and more. With Cat **EMSolutions**, we focus on providing comprehensive, uniform solutions to your equipment management needs so you can focus on your business.

## We help increase uptime and reduce operating costs by:

- Matching the right technologies and solutions to your equipment.
- Turning equipment-generated data into actionable information.
- Integrating that information with our expert services.

Combining the comprehensive, flexible technology of **EMSolutions** with the in-depth knowledge and expertise of Ring Power can help you find new ways to cut your repair costs, streamline maintenance practices, improve availability, and maximize equipment life ... for gains that go straight to your bottom line.

EQUIPMENT  
MANAGEMENT

**Equipment Management** solutions help you increase uptime and reduce operating costs.

PRODUCTIVITY

## EXPANDING OUR REACH.

Ring Power's corporate headquarters in St. Augustine oversees the operations of 18 branch locations throughout the state of Florida, including large regional facilities in Tampa and Orlando as well as crane and forklift facilities in Pompano Beach and Miami. To serve other specialized industries and customers worldwide, Ring Power also has nine facilities outside of Florida (Rhode Island, Indiana, New Jersey, the Carolinas, Georgia, Louisiana, Texas and California).

Ring Power Corporation has become one of the largest Cat dealers in the southeastern United States by offering superior, consistent service and continuously striving to improve. We value innovative, productive

employees and encourage personal and professional development. We promote a safe, hospitable workplace and challenge our employees to live and work in accordance with our company values: INTEGRITY, COMMITMENT, EXCELLENCE and TEAMWORK.

Our desire to contribute to our customers' success has changed the way we do business, time and again, and always for the better. Ring Power remains committed to sustained growth and development and will continue to foster the evolution of our company to ensure we deliver the value our customers deserve.
